

# Halloween Bat Paper Craft SVG Files in Cricut® Design Space

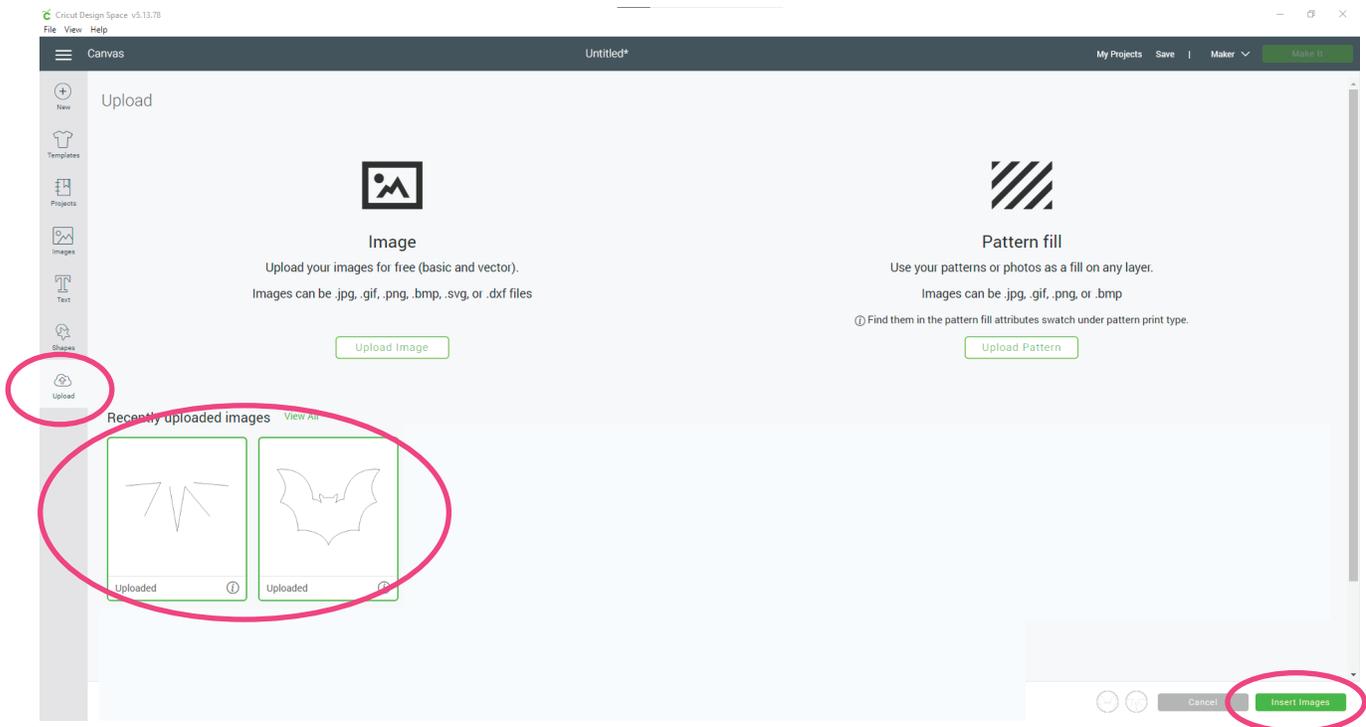

## STEP 1

Open a new, blank project in Design Space. Upload both SVG FILES, one at a time.

## STEP 2

Navigate back to the upload tab in Design Space and select both files to insert them into your blank project.

## STEP 3

Ensure the score lines are arranged on top of the outline then align the SVGs by selecting both **CENTER HORIZONTALLY** and **ALIGN BOTTOM**.

## STEP 4

Select the score lines SVG and change to **SCORE** in the **LINETYPE** drop down. The lines will now appear as dotted lines.

## FINAL STEP

Select MAKE IT in the upper right hand corner and check that all your bats fit your mat. Be sure to select a blade and pressure setting appropriate for the paper you're using. Then let your machine score and cut! Boo yeah!
